SEASICKNESS is due to irritation of the semicircular canal of the inner ear, and caviar is a preventive of cholera. These are two of the latest discoveries in medical science. Persons with irritable semicircular canals in their ears can escape mal de mer only by remaining on terra firma. The stomach has nothing to do with the case, except incidentally -and dieting before a voyage will not help any. The discovery of the incurability of seasickness is discomforting, and the coincident discovery of the germicidal action of caviar on cholera microbes is hardly a compensation. Many people would regard the alternative of taking cholera or taking caviar a choice of evils, whereas in the asivance stages of seasickness the latter would be more terrible than the former to the THESE Socialists do not get along victim, whose fear is not that he

Pets and Penalties.

It is always with fear and trembling that one strikes the note of warning against the dangers that menace through the family pet; but now and then it has to be done, and all the more because of the fact that the dealer the pet the greater the menace. It is hard to prove to the people who admire their cats that this lovable, hugable, kissable animal can be, and often is, a carrier of the worst kinds of disease-germs. They say, "Why, our cat is the daintiest, cleanest thing in the world. She is quite true, she does, only unfor- el. The lot consists of following: tunately she has no knowledge of the germ theory, and those fastidious 3 Ot. Milk Pans passes of hers over the surface of her fur, although very satisfying to her own sense of cleanliness, have she may be unconsciously harboring. The germs of nearly all the epi

demic and local diseases flourish upon the family cat, although the animal itself may not be subject. In some cases it can both spread and have it itself-diptheria is a case in point. The thick fur, so tempting to stroke, can hold the germs of typhoid fever, scarlet fever. measles, whooping cough or smallpox. Besides these and many others, ringworm and tapeworm can be spread in this way, as well as other skin disorders.

It is dreadful to reflect how often a convalescing child is given the family cat to keep it company in its exile from its playmates, and then, when the animal is turned loose in the house without being boiled first, people are quite astonished that the influenza should spread through the entire family -after all their care.

Of course the cat is not the only culprit. Dogs, horses and canarybirds come under the same condemnation, except that dogs are often given thourough batts, especially house dogs. It is difficult to hug and kiss canaries, and horses seldom are allowed to sleep on the foot of the bed. But whatever the nature of the pet may be, it is safe to make the rule that it should not be handled much, especially if it is the long-haired kind: then, if parents will see to it that any animal allowed in the house, the danger will be eliminated. It ought not to be necessary to add a word of protest against the altogather unwise habit of kissing or being kissed by animal pets, and yet this breach of decency is often committed

A Clean Man

Outside cleanliness is less than half the battle. A man may scrub himself a dozen times a day, and still be unclean. Good health means clean lines not only outside, but inside. It means a clean stomach, clean bowels, clean blood, a clean liver, and new, clean, healthy tissues. The man who is clean in this way will look it and act it. He will work with energy and think clean, clear, healthy thoughts.

He will never be troubled with liver, lung, stomach or blood disorders. Despessin and indisesting originate in mothers stom.

disorders. Dyspepsia and indigestion originate in unclean stom-achs. Blood diseases are found where there is unclean blood. Consumption and bronchitis mean unclean lungs.

Dr. Pierce's Golden Medical Discovery

prevents these diseases. It makes a man's insides clean and bealthy. It cleans the digestive organs, makes pure, clean blood, and clean, healthy flesh.

It restores tone to the nervous system, and cures nervous exhaustion and prostration. It contains no alcohol or habit-forming drugs.

Constipation is the most unclean uncleanliness. Dr. Pierce's Pleasant Pcllets cure it. They pever grice. Easy to take as candy.
